PREFACE

This is one of a series of volumes presenting final results of the 1954 Census of Business for Selected Service, Retail, and Wholesale Trade. Statistics for the Selected Service Trades are contained in two volumes, Volume VI and this volume. The 1954 Census, which was conducted by mail canvass of business establishments and by use of Internal Revenue Service records (see "Method of Enumeration" in Introduction), was authorized by law under Title 13, United States Code, Section 131. Previous business censuses covered the years 1929, 1933, 1935, 1939, and 1948.

Important to the conduct of the 1954 Census of Business was the cooperation of the Bureau of Old-Age and Survivors Insurance and the Internal Revenue Service in permitting use of certain records thus making possible a material reduction in the cost of enumerating the Census. The Bureau also acknowledges the assistance of many private and public organizations in the planning phase of the census and the excellent cooperation of some 1,750,000 business establishments in completing the required Census forms.

The advice of trade associations, individual businessmen, research and marketing organizations, and government agencies was invaluable in determining the feasibility of collecting various types of data and the methods for minimizing the burden of reporting, as well as in determining the types of information which would be of greatest value. Especially helpful was the Advisory Council on Federal Reports, which through special panels of business experts advised and assisted in the development of inquiries. Because of budgetary and other limitations, it was not possible to collect all of the data recommended by these groups. Timely publicity given to the Business Census by chambers of commerce, business organizations, trade papers, local newspapers, and television and radio stations aided greatly in informing businessmen of the nature and objectives of the census and facilitated the collection of census reports.

Primary responsiblity for the 1954 Census of Business program was centered in the Business Division of the Census Bureau, under the direction of Harvey Kailin, Chief of the Division. Louis Greenberg, Chief of the Service Trade Branch, supervised the service trade segment of the Business Census. He was assisted by Harry Kahan, Floyd D. McNaughton, Anna C. Miller, and Joseph E. Quillen of the Service Trade Branch who were chiefly responsible for handling technical problems.

Julius Shiskin, Chief Economic Statistician in the Office of the Assistant Director for Statistical Standards, as well as Harold T. Goldstein and Irving Rottenberg of that office, contributed to the coordination of the Business Census with the Censuses of Manufactures and Mineral Industries and to several phases of the planning and processing of the Censuses.

Processing of the 1954 Census of Business reports was performed by the Economic Operations Division, under the supervision of M. D. Bingham, Division Chief, and Irving Weiss, Assistant Chief. Donald K. Weasmer, then Chief of the Retail and Service Census Branch, was responsible for processing Service Trade reports and tabulations. He was assisted by Jack A. Scharff and John S. Lannan.

In the Field Division, Jack B. Robertson, then Chief of the Division; Ivan G. Munro, Assistant Chief; and Arthur L. Cook, then Chief of the Economic Census Branch, directed the field work for the Census of Business.

Important functions were also performed by the Machine Tabulation Division under C. F. Van Aken, Chief. Mrs. Catherine M. Neafsey, Chief of the Economics Section, was responsible for machine tabulation techniques and procedures used in Service Trades tabulations.

Geography Division personnel participating in various phases of Business Census work were Clarence E. Batschelet, Chief; Robert C. Klove, Assistant Chief; and William T. Fay, Chief, Survey Planning Branch.

Donald K. Heiser, Chief of the Electronics Systems Branch, assisted by Rudolph M. Micoly, Chief of Operations for the Branch, was responsible for planning and use of electronic computer and accompanying equipment. Robert H. Brooks, Chief, Graphics Branch, was responsible for preparing Census of Business publications for reproduction. Mrs. Elma Beynon of the Statistical Reports Division reviewed all text material and table forms, and assisted on publications problems.

September 1957.

1954 CENSUS OF BUSINESS FINAL REPORTS

Volume I: RETAIL TRADE—SUMMARY STATISTICS

Chapter
1. United States Summary.
*2. Sales Size.
*3. Employment Size.
*4. Single Units and Multiunits.
*5. Legal Form of Organization.
6. Miscellaneous.
*7. Territories of Alaska and Hawaii.

*Also issued as separate reports in bulletin series R–2.

Volume II: RETAIL TRADE—AREA STATISTICS

United States summary and separate chapters for each State, the District of Columbia, Alaska, and Hawaii. Statistics by counties, cities, and standard metropolitan areas, and by kind of business; with cross classification by kind of business for standard metropolitan areas and for cities and counties with 500 or more retail establishments. (Chapters also are issued as separate reports in bulletin series R–1.)

Volume III: WHOLESALE TRADE—SUMMARY STATISTICS, AND PUBLIC WAREHOUSES

WHOLESALE TRADE

Chapter
1. United States Summary.
*2. Size of Establishment or Firm.
*3. Credit, Receivables, Bad-Debt Losses.
*4. Sales by Class of Customer.
*5. Warehouse and Cold Storage Space.
*6. Commodity Line Sales.
7. Legal Form of Organization.
*8. Petroleum Bulk Plants and Terminals.
9. Miscellaneous.
*10. Territories of Alaska and Hawaii.

*PUBLIC WAREHOUSES

*Also issued as separate reports in bulletin series W–2.

Volume IV: WHOLESALE TRADE—AREA STATISTICS

United States summary and separate chapters for each State, the District of Columbia, Alaska, and Hawaii. Statistics by counties, cities, and standard metropolitan areas, and by kind of business; with cross classification by kind of business for standard metropolitan areas, and for counties and cities with 100 or more wholesale establishments. (Chapters also are issued as separate reports in bulletin series W–1.)

Volume V: SELECTED SERVICE TRADES—SUMMARY STATISTICS

Chapter
1. United States Summary.
*2. Receipts Size.
*3. Employment Size.
*4. Single Units and Multiunits.
*5. Legal Form of Organization.
*6. Hotels; Motels and Tourist Courts.
*7. Power Laundries, Cleaning and Dyeing Plants, and Related Services.
*8. Motion Pictures.
9. Miscellaneous.
*10. Territories of Alaska and Hawaii.

*Also issued as separate reports in bulletin series S–2.

Volume VI: SELECTED SERVICE TRADES—AREA STATISTICS

United States summary and separate chapters for each State, the District of Columbia, Alaska, and Hawaii. Statistics by counties, cities, and standard metropolitan areas, and by kind of business; with cross classification by kind of business for standard metropolitan areas and for cities and counties with 200 or more service establishments. (Chapters also are issued as separate reports in bulletin series S–1.)

CENTRAL BUSINESS DISTRICT BULLETINS

Central business district statistics are published in a series of separate bulletins comprising a report for each of 95 selected large cities. These bulletins are not bound in a volume. Bulletins contain comparative 1954 and 1948 data on number of establishments, volume of sales (or receipts), and annual payroll for all retail stores and about 25 kinds of retail business, and for hotels and motion picture theaters. Areas for which data are presented include the central business district, the city in which it is located, the standard metropolitan area containing the city, the city outside the central business district, and the standard metropolitan area outside the central business district.

CONTENTS

Arabic page numbers in this volume are keyed to chapter numbers by a decimal system. Thus, page 1-5 is page 5 in chapter 1 (United States Summary); page 3-32 is page 32 in chapter 3 (Employment Size). Each chapter contains a detailed table of contents for that chapter.

Corrections found after publication of the subject bulletins are listed on page 18.

INTRODUCTION

The 1954 Census of Business, along with the 1954 Censuses of Manufactures and Mineral Industries, was authorized by law under Title 13, United States Code, Section 131. (See Appendix A.) These 1954 Censuses covered businesses operated in continental United States, Alaska, and Hawaii. Separate Censuses of Business and Manufactures for 1954 were also conducted in Puerto Rico jointly with the Commonwealth Government.

The 1954 Census of Business covered Selected Service Trades, Retail Trade, and Wholesale Trade. This volume provides findings for that portion of the 1954 Census of Business which relates to the Selected Service Trades.

KINDS OF BUSINESS COVERED

This volume covers all establishments primarily engaged in certain Selected Service Trades, defined in accordance with the principles of the Standard Industrial Classification System, as published in Volume II, Nonmanufacturing Industries (1949 edition) of the Standard Industrial Classification Manual issued under the auspices of the Bureau of the Budget, Executive Office of the President, and subsequently amended by the Bureau of the Budget for use in the 1954 Census of Business. See Appendix C for a comparison of classifications used in the 1954 Census and the 1949 Standard Industrial Classification Manual. Of the 15 major groups included in the Service Division of the Manual, the 1954 Census of Business includes the following S. I. C. major groups essentially in their entirety:

70. Hotels, camps (rooming and boarding houses, organization hotels and lodging houses have been omitted from the Census).
72. Personal services.
73. Miscellaneous business services (accounting, auditing, bookkeeping have been omitted from the Census).
75. Automobile repair services and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures.

The following major groups of the Service Division as presented in the Standard Industrial Classification Manual are excluded in their entirety from the scope of this Census:

77. Radio broadcasting (including facsimile broadcasting) and television.
80. Medical and other health services.
81. Legal services.
82. Educational services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

Kind-of-business classifications are described in Appendix B.

METHOD OF ENUMERATION

For purposes of coverage in the 1954 Census of Business, service establishments were divided into two categories--those with any paid employment during 1954, i.e., the "employer" universe; and those with no paid employment during 1954, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups was as follows:

Enumeration of "Employers."--Information for establishments having paid employees and engaged in the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms which were included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, and in major groups 70, 72, 73, 75, 76, 78, and 79 of the Service portion of the Standard Industrial Classification Manual. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business prior to the mailing of Census report forms. Each establishment was mailed a report form appropriate to its BOASI classification (for those cases for which BOASI classification had not yet been established, a general purpose form was used) but its 1954 Census classification was determined by replies to questions on the Census report form. (See Appendix H for reproductions of basic report forms.)

Enumeration of "Nonemployers."--This group was defined to include service businesses within the census scope other than those represented in the active FICA records of the Internal Revenue Service. Information for this group of establishments was furnished by the Internal Revenue Service and was derived from the 1954 tax returns. Information was compiled from only one-half of these cases and census results for this group were established by multiplying such findings by 2. The "nonemployer" segment of the Service Trade Census, although making up more than half the establishments, accounted for about 10 percent of the total service trade volume of receipts.

COMPARISON OF 1948 AND 1954 CENSUSES

The 1948 and 1954 Business Censuses differed in several respects which affect to some degree the comparability of data for the service trades. A comparison of kind-of-business classifications for the two years is shown in Appendix D. The more important general differences are discussed in this section. The effect on individual kinds of business is discussed in Appendix B, KIND-OF-BUSINESS CLASSIFICATION.

(1) The 1954 Business Census excludes those service establishments with no paid employment in 1954 which had a receipts volume of less than $1,000 in that year. Previously published results of the 1948 Census excluded establishments which operated the entire year but which had a receipts volume of under $500. However, in this volume, the 1948 Census figures have been revised to the same dollar cutoff as was used in the 1954 Census. This change was made to help achieve greater comparability between the two censuses, although it should be recognized that changes in price level which have occurred between 1948 and 1954 have the effect of complicating comparisons between the two censuses. Use of the same dollar volume cutoff does not take into consideration such changes in price level. However, this situation does not importantly affect a comparison between the two censuses with respect to the total dollar volume of receipts, as establishments in this range constitute an insignificant fraction of the service receipts volume.

(2) The adoption of the mail canvass method in the 1954 Business Census, described under METHOD OF ENUMERATION above, made it feasible to extend the coverage of the census to

"nonrecognizable" establishments and those closed part of the year because of the seasonal nature of their activities. In the 1948 and previous Business Censuses, coverage was limited to places which were "recognizable" as business establishments to enumerators who systematically canvassed all city blocks, roads, highways, etc. The use of the BOASI mailing lists and IRS records, referred to above, for the 1954 Census made this limitation unnecessary and resulted in the addition to the census coverage of "nonrecognizable" businesses; e.g., businesses operated from homes or from desk space rented in offices; businesses operated from telephone listings; businesses operated on an itinerant basis, etc. Most of the "nonrecognizable" cases in the 1954 Census are classified in the business service and miscellaneous repair service categories (see Appendix B, KIND-OF-BUSINESS CLASSIFICATION). For most kinds of business the effect of the inclusion of "nonrecognizables" is greater on the count of establishments than on the volume of receipts. Where the effect on a particular kind of business is important it is noted in Appendix B.

(3) The change in method of enumeration also resulted in the inclusion in the 1954 Business Census of a number of establishments which were in business a part of 1954 but not at the end of 1954. In the 1948 and previous Business Censuses, the coverage of establishments (except for those of large multiunit organizations for which special canvass procedures were used) was substantially limited to places which, at the end of the year, were still in business. In the 1954 Census, however, the inclusion of establishments not in business at the end of the year was possible to the extent that such establishments were included in the active files of the Internal Revenue Service used for mailing list purposes or to the extent that they were identified in the records used for the "nonemployer" universe. In both 1954 and previous Business Censuses, the count of establishments is limited to those in business at the end of the year. Other items of data in the 1954 Census, however, include figures for part year establishments not in business at the close of the year. The extent to which data for such establishments have been included in the 1954 Census figures will be noted in later publications.

(4) Another important difference between the two censuses is in the treatment of sales, excise, and amusement taxes levied directly on the consumer. In the 1948 Census of Business such taxes were not included in the total receipts of service establishments, whereas they were included in the 1954 Census. The overall effect of this change, however, is believed to be small, as most State service and sales taxes averaged about two or three percent. The most important segment of service trade affected by this difference is the amusement trades. In this field Federal and local tax rates tend to be comparatively high, and the 1954 receipts data will be correspondingly greater.

(5) Comparability of 1948 and 1954 Business Census results is also affected by a change in concept which affects volume of receipts in the Selected Service Trades, in "Business Services" and in "Advertising Agencies." In 1948 receipts of advertising agencies were included net of media costs, whereas in 1954 their receipts included media costs. This results in an estimated increase of over $2 billion in total receipts for the United States.

(6) Comparison of the two Censuses is further qualified by the fact that the scope of the 1954 Census was expanded to include the following kinds of business: Motion picture production, distribution, and allied services; trailer parks; and membership golf and country clubs.

CONFIDENTIALITY OF DATA

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by Census rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

TEXT CHART

Hotel Payroll and Receipts—United States, by States: 1954 and 1948 14

SUMMARY OF FINDINGS

The major findings of the 1954 Census of Service Trades are summarized below. In comparing 1954 Census data with data from the 1948 Census reference should be made to the section, COMPARISON OF 1948 AND 1954 CENSUSES, in the Introduction.

GENERAL SUMMARY

There were 785,589 separate places of business, with total receipts of $23,508,019,000 within the scope of the 1954 Census of Service Trades. The 375,149 of these which had payroll, representing 47.8 percent of the total number, accounted for receipts of $21,263,497,000 or 90.5 percent of all receipts. These establishments paid out $6,524,915,000 in wages and salaries during the year. For the workweek which ended nearest November 15, 1954, they had 2,361,821 employees on the payroll of whom 2,024,726, or 85.7 percent, worked the full workweek. In addition, unincorporated businesses had approximately 782,000 proprietors. Data on the number of unpaid family workers who worked in these establishments are not available.

Overall, the average service establishment with payroll had about ten times as much receipts as did establishments without payroll (see table A). Differences by kind-of-business group were considerable. The average size of payroll establishments in the "Business services" group was greatest ($150,000) due largely to the influence of one kind of business in the group, advertising agencies, which had an average size of $969,000. Business service establishments with no payroll averaged only $6,247 in annual receipts, about one twenty-fifth the size of payroll cases. For "Personal services," the range between the size of payroll and no-payroll cases was smallest, with no-payroll cases averaging one-seventh the size of payroll cases.

Table A. AVERAGE ANNUAL RECEIPTS OF SERVICE TRADE ESTABLISHMENTS WITH AND WITHOUT PAYROLL, BY MAJOR KIND-OF-BUSINESS GROUP— UNITED STATES: 1954

Major kind-of-business group	Establishments with payroll (Dollars)	Establishments without payroll (Dollars)
Selected services, total	56,680	5,469
Personal services	30,273	4,510
Business services (exc. accounting, auditing, bookkeeping)	150,115	6,247
Automobile repair services, garages	39,327	7,106
Miscellaneous repair services	40,956	5,468
Amusement, recreation services (inc. motion pictures)	80,768	7,319
Hotels, motels, tourist courts, camps	73,807	6,374

The significance of establishments without payroll in the service trades is indicated in Table B. The "Miscellaneous repair services" group showed the greatest percentage of no-payroll cases both in terms of number of establishments in this category (70.8 percent) and volume of receipts (24.5 percent). Within this group, over 50 percent of the receipts of the watch, clock, and jewelry repair business was taken in by establishments with no payroll. Illustrations of kinds of service business in which operation without paid employees is very rare are cleaning and dyeing plants and motion picture theaters. Only 7.5 percent of the cleaning and dyeing plants and 6.1 percent of the motion picture theaters operated with no employees at any time during 1954; receipts of these establishments amounted to 1.5 percent and 0.8 percent of the industry totals respectively.

Table B. ESTABLISHMENTS WITHOUT PAYROLL AS PERCENT OF TOTAL SERVICE TRADE ESTABLISHMENTS, BY KIND OF BUSINESS— UNITED STATES: 1954

Kind of business	Establishments without payroll	
	Establishments, as percent of total establishments	Receipts as percent of total receipts
Personal services, total	53.3	14.5
Barber shops	62.5	36.2
Beauty shops	55.5	20.7
Funeral service, crematories	31.9	12.2
Photographic studios (including commercial photography)	57.7	18.0
Shoe repair shops	75.2	46.9
Pressing, alteration, garment repair (except fur)	62.4	36.1
Cleaning, dyeing plants (except rug cleaning)[1]	7.5	1.5
Power laundries, self-service laundries[1]	33.0	4.2
Automobile repair, garages, total	48.9	14.8
Automobile repair	52.3	18.8
Automobile storage, parking	23.1	4.2
Miscellaneous repair services, total	70.8	24.5
Watch, clock, jewelry repair	82.1	50.3
Upholstery, furniture repair	61.4	25.6
Radio, television repair shops	74.3	32.5
Amusement, recreation services (including motion pictures), total	28.8	3.5
Motion picture theaters, total	6.1	0.8
Billiard and pool parlors, bowling alleys	35.2	10.7
Hotels, motels, tourist courts, camps, total	42.4	6.0
Hotels	21.8	1.7
Motels and tourist courts	48.8	20.1

[1]Includes plant owned outlets.

Almost all service industries increased in both receipts and payroll between 1948 and 1954 (see Table C). Outstanding exceptions are shoe repair shops and motion picture theaters which had decreases in both receipts and payroll in 1954 as compared to 1948, and watch, clock and jewelry repair which had a decrease in payroll while receipts were unchanged.

In general, receipts increased by a greater percentage than did annual payrolls. For example, receipts of barber shops increased by about 37 percent while payrolls increased by about 25 percent; for pressing, alteration and garment repair businesses, the increases were 28 percent in receipts and 13 percent in payroll. Examples in the opposite direction, where payrolls increased by a larger percentage than receipts, are hotels with an increase of about 11 percent in receipts and 22 percent in payroll and funeral service establishments which had a 30 percent increase in receipts and a 41 percent increase in payroll. Automobile repair services, beauty shops, and cleaning and dyeing plants are examples of kinds of business where receipts and payrolls tended to increase at about the same rate.

Change in volume of receipts between 1948 and 1954 varied considerably by kind of business. It is interesting to note that while receipts of barber shops rose 36.5 percent in this time period, beauty shop receipts increased by 50 percent.

Table C. PERCENTAGE CHANGE IN SERVICE TRADE RECEIPTS AND PAYROLL FROM 1948 TO 1954, BY KIND OF BUSINESS—UNITED STATES

Kind of business	1954		Change, 1948 to 1954[1]	
	Receipts ($1,000)	Payroll ($1,000)	Receipts (Percent)	Payroll (Percent)
Personal services, total	5,772,869	1,960,442	30.0	23.9
Barber shops	551,934	156,977	36.5	24.6
Beauty shops	626,161	207,693	50.0	45.0
Funeral service, crematories	744,348	126,904	30.1	41.0
Photographic studios (including commercial photography)	334,055	81,420	57.6	40.7
Shoe repair shops	186,212	28,328	-7.9	-13.4
Pressing, alteration, garment repair (except fur)	410,307	66,784	28.2	12.8
Cleaning, dyeing plants (except rug cleaning)[2]	1,086,815	499,678	34.6	29.7
Power laundries, self-service laundries[2]	1,008,551	511,969	11.9	6.3
Other personal services	824,486	280,689	36.9	35.8
Automobile repair services, garages, total	2,222,672	487,655	42.4	37.2
Automobile repair	1,589,120	336,387	24.9	22.5
General automobile repair shops	962,726	179,354	14.7	13.1
Other automobile repair shops	626,394	157,033	44.8	35.5
Automobile parking, other services	633,552	151,268	119.2	87.1
Automobile storage, parking	292,170	84,910	53.5	51.7
Other automobile services	341,382	66,358	245.8	166.7
Miscellaneous repair services, total	1,795,758	455,056	89.6	96.1
Watch, clock, jewelry repair	86,359	12,325	...	-8.0
Upholstery, furniture repair	182,564	39,025	44.5	29.6
Radio, television repair shops	307,922	60,739	205.8	192.1
Other repair services	1,218,913	342,967	92.3	104.4
Motion picture theaters	1,407,151	289,664	-12.8	-4.2
Billiard and pool parlors, bowling alleys	271,821	77,686	33.2	20.8
Hotels	2,404,529	802,965	10.7	21.7
Motels, tourist courts	457,065	64,250	133.8	184.2

[1]Minus sign denotes decrease.
[2]Includes plant-owned outlets.
... Represents zero.

CITY-SIZE DISTRIBUTION

The tendency for service enterprises to concentrate in large urban areas is illustrated in Table D, below. The percent distribution of population, service trade receipts, and retail trade sales by size of city is shown in the first three columns of the table. It will be noted that, in general, the larger the city, the greater is the proportion of receipts of service establishments. For example, 17.6 percent of the United States population was located in cities of 500,000 or more inhabitants, but these cities accounted for 31.4 percent of the receipts of service establishments (excluding business services). On the other hand, places of fewer than 2,500 inhabitants and rural areas, where 41.3 percent of the total population lived, had only 16.5 percent of the service receipts. The inclusion of receipts from business services omitted from these comparisons, would have resulted in figures showing an even greater urban concentration.

Columns (4) through (9) of Table D show the extent to which the proportion of service trade receipts differs from the proportion of population in each of the city-size groups. Thus, receipts of Selected Services (i.e., service trades excluding business services) in cities with 500,000 or more inhabitants were 78 percent more than they would have been if receipts were directly proportional to the number of persons living in cities of this size. In the rural areas and places with less than 2,500 inhabitants, receipts were 60 percent less. (This is especially significant in light of the fact that 42 percent of service receipts for such places were in areas located within standard metropolitan areas see Table 2G). In general, the smaller the city-size class the less the difference between the proportion of population and proportion of receipts.

Table D. RATIO OF ACTUAL RECEIPTS TO EXPECTED RECEIPTS FOR SERVICE TRADES, BY CITY SIZE—UNITED STATES: 1954

City size	Percent distribution by city size			Ratio of receipts distribution to population distribution						
	Population[1]	Receipts of selected services[2]	Sales of retail stores	Selected services[2]	Personal services	Automobile repair services and garages	Miscellaneous repair services	Amusement, recreation services	Hotels, motels, tourist courts, camps	Retail trade
United States, total	100.0	100.0	100.0	100	100	100	100	100	100	100
Cities with—500,000 or more inhabitants	17.6	31.4	21.0	178	172	160	159	207	174	119
250,000 to 499,999 inhabitants	5.5	8.8	7.9	160	175	189	169	140	140	144
100,000 to 249,999 inhabitants	6.3	9.4	9.3	149	170	183	162	114	127	148
50,000 to 99,999 inhabitants	5.9	7.8	8.5	132	156	141	156	97	120	144
25,000 to 49,999 inhabitants	5.8	8.0	8.8	138	150	121	133	128	143	152
10,000 to 24,999 inhabitants	7.9	9.0	11.6	114	129	104	120	108	94	147
5,000 to 9,999 inhabitants	5.4	5.3	7.5	98	115	89	102	87	83	139
2,500 to 4,999 inhabitants	4.3	3.8	5.8	88	102	81	88	77	88	135
Remainder of United States	41.3	16.5	19.5	40	26	44	41	46	55	47

[1]Based on 1950 population. [2]Excluding "Business services."

The pattern exhibited by retail trade sales in these areas (as shown in column 10) differs significantly from the service trade pattern. In the 500,000 or more inhabitants group the receipts are only 19 percent above the expectation based on the proportion of population in these cities. This increases to 44 percent in the next size group and remains fairly steady through all other city-size groups. However, in "Remainder of United States," which includes cities of less than 2,500 inhabitants and rural areas, sales amounted to 53 percent less than population.

Receipts from personal service establishments showed a similar pattern to that shown for Selected Services as a whole. The major difference was that the decrease in expected receipts as the city-sizes decreased was not as sharp, except for places with less than 2,500 inhabitants and in rural areas where receipts were only 26 percent of what might be expected based on population in such areas.

With some minor variations the pattern of receipts from automobile repair services and miscellaneous repair services followed the pattern for all selected services. Amusements showed particularly heavy concentration in the largest city-size group, but a lesser concentration in the 50,000 to 99,999 inhabitant group, and in the 25,000 to 49,999 group than in other service trades.

The location of motel and tourist camps in rural areas (i.e., "Remainder of United States") lifted the receipts for the hotels, motels and tourist camp group to 55 percent of the expected receipts based on population, the highest percentage for any kind-of-business group for these areas.

Table E illustrates the relationship of size of service trade establishments (based on volume of receipts) to size of city in which the establishment is located. In general, there is a direct correlation between size of establishment and size of city. Thus, in cities of 500,000 or more inhabitants, 63 percent of the dollar volume of business is done in establishments with annual receipts of $300,000 and over. This proportion declines steadily by size of city and in places of 2,500 to 5,000 inhabitants only 8.5 percent of receipts is accounted for by such establishments. The proportion of total receipts represented by establishments in the $100,000 to $299,000 size class remains about the same for all city size groups except the largest (500,000 and over) and for places with fewer than 10,000 inhabitants. Establishments with receipts of $5,000 to $9,000 range from 2.8 percent of total receipts in places of 500,000 or more inhabitants to 11.2 percent of receipts in places of 2,500 to 4,999.

Table E. DISTRIBUTION OF RECEIPTS OF SERVICE TRADE ESTABLISHMENTS, BY RECEIPTS SIZE AND CITY SIZE—UNITED STATES: 1954

(Detail may not add to 100 percent because of rounding)

Receipts size of establishment (Annual receipts volume)	Total, United States (Percent)	Distribution of receipts in places with population of— 500,000 or more (Percent)	250,000 to 499,999 (Percent)	100,000 to 249,999 (Percent)	50,000 to 99,999 (Percent)	25,000 to 49,999 (Percent)	10,000 to 24,999 (Percent)	5,000 to 9,999 (Percent)	2,500 to 4,999 (Percent)	Remainder of United States (Percent)

Less than $5,000	3.0	1.4	2.3	2.9	3.2	3.3	4.1	5.2	6.6	6.0

STANDARD METROPOLITAN AREAS

Table F, below, presents receipts data for 1954 and 1948 for personal service establishments and automobile repair services, garages, etc., for the 25 standard metropolitan areas with the greatest volume of retail sales in 1954.

Receipts from personal service trade establishments in standard metropolitan areas showed sizable increases between 1948 and 1954. Of the 25 areas considered, the Dallas Area showed the greatest percentage increase, 55.6 percent over 1948. Other large increases were registered in Miami, with 45.9 percent; Los Angeles, 43.9 percent; and Houston, 43.1 percent. The lowest increases occurred in the Portland, Oreg., and Pittsburgh, Pa., areas with 14.2 and 15.3 percent, respectively.

In general, the personal service receipts in the parts of the metropolitan areas outside the central cities increased at a much higher rate than in the central cities. In two areas, Denver, Colo., and Miami, Fla., the receipts in the areas outside the central cities more than doubled during this period. Only Atlanta, Ga., Dallas, Texas, and Seattle, Wash., showed greater increase in the central city, however all three had sizable annexations between 1948 and 1954.

While receipts of automobile repair services, garages, etc., in standard metropolitan areas also showed substantial increases in 1954 over 1948, for many of the areas the increase within the city was greater than the increase outside. This was particularly true of Philadelphia, where the increase in the city amounted to 117.2 percent over 1948, and 58.8 percent outside. Much of this increase is based on a five-fold increase in receipts of automobile and truck rental establishments in the metropolitan area, from $4,563,000 in 1948 to $23,574,000 in 1954, since such establishments tend to be located within the city rather than in the suburbs. Several of the areas showed decreases outside the city, while the cities registered sizable increases. In the Dallas, Houston, Portland, and Seattle areas (the 4 which showed decreases outside the city) there were significant annexations by all except Portland, between 1948 and 1954.

Table F. PERCENTAGE CHANGE IN RECEIPTS OF PERSONAL SERVICES AND AUTOMOBILE REPAIR SERVICES AND GARAGES FROM 1948 TO 1954—SELECTED STANDARD METROPOLITAN AREAS

(Minus sign denotes decrease)

PER CAPITA EXPENDITURES BY KIND OF BUSINESS

An indication of the relative growth of different service trades in the national economy can be observed by comparing the per capita expenditure for selected kinds of business in 1954 and in 1948. Because the activities of business services ordinarily are not directly concerned with the household consumer as are other service trades included in the scope of the Census, they are omitted from this discussion. For the same reason, the receipts of motion picture production, distribution and services are also omitted. The total receipts for all other services within the scope of the Census amounted to $16 billion, representing a per capita expenditure for the United States of $100.79.

Table G, below, presents per capita expenditures and percent changes from 1948 to 1954 for selected kinds of business. Most kinds of business showed significant increases over the period, although there were some important categories which showed only slight increases, or decreases.

Personal services was the most important single group in both 1954 and 1948, accounting for $35.81 and $30.39 per capita, respectively. All important kinds of business in this group showed significant increases, with one exception, shoe repair shops, which registered a decrease of 15.9 percent. Part of the difference in expenditures between the two periods, of course, reflects changes in price level.

Amusements, with per capita expenditures of $21.17 during 1954, accounted for more than one-fifth of the service dollar. Regular motion picture theaters, in which per capita expenditures amounted to $7.32, were the largest single expenditure item in 1954, as they were in 1948. However, the amount each person spent in motion picture theaters declined 32 percent between 1948 and 1954. The decrease in individual expenditures at indoor motion picture theaters was somewhat offset by the large increase in per capita expenditures at drive-in theaters.

PER CAPITA PERSONAL SERVICE EXPENDITURES BY STATE

Per capita expenditures for personal services by States (see Table H) varied from $71.62 to $17.58; however, 25 States had expenditures ranging between $25 and $35 with the remaining States divided about equally above or below this range. The District of Columbia was first; the States, in order of their 1954 rank, were: Nevada, New York, Illinois, New Jersey, and California. The District of Columbia and the five States with the highest per capita expenditure in 1954 were also high in the 1939 and 1948 Censuses.

The States showing the greatest rate of increase in 1954 over 1948 were: Kansas, Louisiana, Nevada, New Mexico, Texas, and Wyoming; and the States showing the lowest percentage of increase were: New York, Oregon, South Dakota, Utah, Vermont, and West Virginia. Compared to the pre-World War II Census period of 1939, Mississippi, Arkansas, Alabama, and South Carolina showed the greatest gains and the least was shown in the District of Columbia and in the States of California, Rhode Island, Vermont, New York, and Delaware.

WEEKLY EMPLOYMENT AND PAYROLL

Weekly payroll data for the week which ended nearest November 15 are presented for selected kinds of service trades in Table I below. Compensation of employees engaged in motion picture production, distribution and related services averaged $145.11 for the workweek which ended nearest November 15, 1954. This was considerably higher than any other group of service trade employees. The next highest paid group was business services, with an average of $79.97 a week. It should be noted that these two highest paid groups are not engaged in direct service to the consumer as are the employees of most other service trades covered by the Census.

Table G. PER CAPITA EXPENDITURES FOR SELECTED KINDS OF SERVICE TRADES—UNITED STATES: 1954 AND 1948

Kind of business	Per capita expenditure[1]		Change, 1948 to 1954[2]
	1954 (Dollars)	1948 (Dollars)	(Percent)
Personal services, total	35.81	30.39	17.8
Barber shops	3.42	2.77	23.5
Beauty shops	3.88	2.86	35.7
Cleaning, dyeing plants (exc. rug cleaning)[3]	6.74	5.53	21.9
Funeral services, crematories	4.62	3.92	17.9
Photographic services (inc. commercial photography)	2.07	1.45	42.8
Pressing, alteration, garment repair shops (exc. fur)	2.55	2.19	16.4
Shoe repair shops	1.16	1.38	-15.9
Other personal services	11.37	10.29	10.5
Automobile services and garages, total	13.79	10.69	29.0
General automobile repair shops	5.97	5.75	3.8
Automobile storage, parking	1.81	1.30	39.2
Other automobile services and garages	6.01	3.64	65.1
Miscellaneous repair services, total	11.14	6.48	71.9
Electrical repair shops	3.11	1.47	111.6
Upholstery, furniture repair	1.13	0.87	29.9
Watch, clock, jewelry repair	0.54	0.59	-8.5
Other miscellaneous repair services	6.36	3.55	79.2
Amusements (exc. motion picture prod. & dist.)[4]	21.17	18.30	15.7
Motion picture theaters, exc. drive-in	7.32	10.73	-31.8
Drive-in motion picture theaters	1.41	0.32	340.6
Other amusements	12.44	7.25	71.6
Hotels	14.92	14.87	0.3
Motels, tourist courts	2.84	1.20	136.7

[1]Per capita figures based on Census of Business data for 1954 and 1948 and estimated population figures for the same years.
[2]Minus sign denotes decrease.
[3]Includes plant-owned outlets.
[4]Includes taxes.

Employees of miscellaneous repair service establishments also received higher weekly pay than most other service trade employees. The average for this group was $75.97 per week. Personnel of radio, television repair shops received $75.05 per week, and some of the other trades in this group, paid even higher salaries. At the other end of the scale, full-time employees of billiard and pool parlors, and bowling alleys received on an average only $33.01 per week; of motels and tourist courts, $35.04; and of motion picture theaters, $39.14.

All kinds of business for which data are shown in Table I showed significant increases in average weekly payroll per full time employee from 1948 to 1954. The highest observed increase was in the miscellaneous repair service group, particularly in radio, television repair shops. Other businesses showing large percentage increases were beauty and barber shops and automobile repair shops. The lowest measured increase was amongst employees of pressing, alteration and garment repair establishments.

PAYROLL-TO-RECEIPTS RATIOS

Characteristically, payroll expenditures of service trade establishments represent a very substantial proportion of the receipts dollar. In 1954, payroll for the selected service trades

Table H. PER CAPITA EXPENDITURES FOR PERSONAL SERVICES, BY STATES: 1954, 1948, AND 1939

included in the scope of the Census amounted to 30.7 percent of the receipts of establishments with payroll. For retail trade, payroll constituted 11.5 percent of sales and for merchant wholesalers the percentage was 6.9.

An analysis of Table J, below, permits an evaluation of the kinds of business in which "meeting the payroll" becomes most important. The power laundry industry, in which payroll averages 55 percent of receipts, is outstanding in this respect, followed by the cleaning and dyeing industry with 47 percent of receipts going for payroll.

Table I. AVERAGE WEEKLY WAGE OF SERVICE TRADE FULL-WORKWEEK EMPLOYEES, BY KIND OF BUSINESS—UNITED STATES: 1954 AND 1948

Kind of business	Average weekly wage of full-workweek employees, workweek ended nearest Nov.15		Increase, 1948 to 1954

[2]1948 data not comparable.

Funeral service and motels, tourist courts, trailer parks, and camps were the only kinds of business among those listed in Table J that had a payroll-receipts ratio under 20 percent. For funeral service establishments, the factors affecting this ratio undoubtedly include the cost of merchandise (caskets, funeral clothing, etc.). For motels, family operation of the business was an important factor. The low payroll-receipts ratio of 21 percent for motion picture theaters reflects the high proportion of receipts which goes for film rental.

RECEIPTS SIZE (TABLES IN CHAPTER 2)

The individual establishment or unit, rather than the company or firm, is the basis of the statistics on receipts size presented in Chapter 2 of this volume. In those kinds of business where there are a significant number of firms operating establishments at more that one location, such as hotels or motion picture theaters, receipts-size statistics based on a firm or company basis would vary considerably from those based on size of the individual establishment.

The receipts-size analysis of the 1954 Census of Business data is shown only for establishments "operated entire year." Establishments which operated 10 months or more during the year

and which were in operation at the end of the year were classified as "entire year" establishments.

In general, in those types of business where very little investment in merchandise or equipment is required, small businesses predominate. This is particularly true of such kinds of business as barber and beauty shops, shoe repair shops, and pressing, alteration, and garment repair establishments. On the other hand, certain types of business require large staffs of employees or specialized machinery, and therefore result in larger establishments. Examples are power laundries, motion picture theaters, motion picture production and distribution services, and hotels. Table K, below, presents data by kind of business and receipts size for selected service trades.

Only 4.4 percent of service trade establishments had receipts of $100,000 or more during 1954, but these establishments accounted for 58.1 percent of the total receipts of service trade establishments. Another 33.8 percent of the receipts came from the 36.8 percent of the establishments with receipts ranging from $10,000 to $99,000, while the remaining 8.1 percent of the receipts originated in the 58.8 percent of the establishments having less than $10,000 in annual receipts. In this last category were 84.4 percent of the Nation's barber shops, 78.9 percent of the beauty shops, 82.4 percent of shoe repair shops, and 79.6 percent of watch, clock, jewelry repair shops.

More than three-quarters of the total receipts of power laundries came from the 27.4 percent of such businesses which had receipts in 1954 of $100,000 or more. At the other extreme, establishments with receipts of less than $10,000, numbering 13.3 percent of the total, accounted for less than one percent of the total receipts.

Nearly all the receipts (96.5 percent) of motion picture production, distribution, and service establishments came from the 36.5 percent of these businesses whose receipts were $100,000 or more annually. The average receipts size of such businesses was $1,111,239. The businesses in this category with receipts of less than $100,000 accounted for only 3.5 percent of the receipts, although in numbers they represented 63.5 percent of the establishments.

Table K. DISTRIBUTION OF SERVICE TRADE ESTABLISHMENTS, BY RECEIPTS SIZE, BY KIND OF BUSINESS—UNITED STATES: 1954

EMPLOYMENT SIZE (TABLES IN CHAPTER 3)

More than 59 percent of the service establishments included in the scope of the 1954 Census had no paid employees at any time during the year (see table L). However, these establishments accounted for only about 12.4 percent of total receipts. For shoe repair shops the proportion of establishments with no paid employees was about 80 percent. On the other hand, only 17.3 percent of motion picture theaters had no paid employees during 1954.

Of the 304,000 full-year establishments with employees, only 2,200 reported 100 or more workers on their payroll as of the week ending November 15, 1954. These establishments while constituting only seven-tenths of one percent of the number did 20 percent of the volume of business.

Kinds of service business which had the greatest proportion of establishments with 100 or more employees included hotels, power laundries, and cleaning and dyeing plants. On the other hand, establishments operating with no paid help during November 1954 included 60,193 barber shops, 45,664 beauty shops, 20,848 shoe repair shops, 29,715 pressing, alteration, and garment repair shops, and 43,325 automobile repair shops.

SINGLE UNITS AND MULTIUNITS (TABLES IN CHAPTER 4)

In general, multiunit operation is not typical of service trade businesses. Only 4.5 percent of service establishments were operated as part of multiunit organizations operating two or more service establishments in the same general kind of business (see table M); in retail trade 9.7 percent of the stores were part of such organizations. The average size of multiunit service establishments was substantially greater than for single units, as evidenced by the fact that 24.3 percent of all receipts was accounted for by the 4.5 percent of establishments which were parts of multiunits.

Although multiunit operation was not typical of service trade as a whole it was most important in the motion picture industry. For motion picture theaters, 47.2 percent were parts of multiunit companies--these theaters took in 63.7 percent of the total receipts of the industry. In the motion picture production, distribution, and services industry the 20 percent of the establishments which were parts of multiunits accounted for 72.8 percent of the total volume of business.

Other kinds of business in which multiunit operation played a significant part were business services, which were affected noticeably by multiunit advertising agency operations, with 35.5 percent of dollar volume accounted for by multiunits; hotels, 26 percent; and automobile storage and parking 30.8 percent.

LEGAL FORM OF ORGANIZATION (TABLES IN CHAPTER 5)

In terms of number of establishments individual proprietorships dominated other forms of organization, with 80.2 percent of all service establishments covered in the census being operated under this legal form. Partnerships accounted for 11.2 percent; corporations 8.4 percent, and all other legal forms 0.2 percent. In terms of volume of business, however (see Table N), individual proprietorships' receipts were only 31.8 percent of the total, and partnerships' 14.6 percent. Receipts of corporations accounted for more than six times the proportion indicated by their number.

For a number of service trades, individual proprietorship accounted for the greatest proportion of receipts as well as the overwhelming number of establishments. In barber shops, this legal form accounted for about 88 percent of the dollar volume. Other kinds of business in which this form dominated were shoe repair shops; watch, clock, and jewelry repair shops; and beauty shops.

The corporate form of organization was predominant among amusement and recreation services, particularly in the motion picture industry where corporations accounted for 96 percent of receipts of motion picture production and distribution establishments and 75 percent of the receipts of motion picture theaters. They also accounted for 71.5 percent of the receipts of business services.

Table M. SERVICE TRADE MULTIUNITS, BY KIND OF BUSINESS—UNITED STATES: 1954

Kind of business	Multiunits as percent of total—	
	Establishments (Percent)	Receipts (Percent)

Other amusement, recreation services	3.4	7.3
Hotels, motels, tourist courts, camps, total	4.6	21.5
Hotels	9.1	26.0
Motels, tourist courts, trailer parks, camps	1.9	3.9

[1] Includes plant-owned outlets.

Table O presents information on the average size of establishments by legal form of organization and kind of business. For selected services as a whole, the average size of establishments operated by partnerships was more than three times that of individual proprietorships. Establishments of corporations averaged more than four and a half times the size of partnership establishments.

Although average size of partnerships always exceeded average size of individual proprietorships and was in turn exceeded by corporations, the proportion of increase varied by kind of business. Funeral service partnerships were less than twice the size of proprietorships, whereas watch, clock, and jewelry repair shop partnerships were more than three times the size of proprietorships. While the size of corporate pressing, alteration, and garment repair shops was only about 50 percent greater than for partnerships, within the same major group—personal services—the average size of corporate beauty shops was more than four times the size of partnerships.

HOTELS; MOTELS AND TOURIST COURTS (TABLES IN CHAPTER 6)

The difference in the nature of operation of hotels and motels and tourist courts is illustrated by Table P, below. Whereas guest room rentals accounted for 83.8 percent of the receipts of motels and tourist courts with payroll and 10 or more rental units, year-round hotels with payroll and 25 or more guest rooms had only 52.2 percent of their revenue from this source. The sale of meals and nonalcoholic beverages accounted for a substantial proportion of hotel receipts, 27.1 percent; for motels and tourist courts this source yielded only 7.7 percent of total receipts. Alcoholic beverage sales accounted for another 10.4 percent of the hotel dollar whereas for motels such sales amounted to 1.7 percent. Receipts from operation of service station facilities by motel owners amounted to 2.6 percent of motel income.

Table Q, below, illustrates the difference in hotel business in 1954 as contrasted to 1948. In 1948 over 60 percent of the receipts of year-round hotels with 25 or more guest rooms was by hotels which had an occupancy rate of 80 percent or over. In 1954 only half as much revenue, proportionately, was accounted for by this group. In 1954 over 40 percent of hotel income came from hotels with less than 70 percent occupancy; in 1948 the corresponding percentage was 15.7.

The chart on page 14 shows payroll as a percentage of receipts, by States, for the years 1948 and 1954 as well as the national average for both years. The States are ranked in accordance with the increase that occurred in their payroll-to-receipts ratios between 1948 and 1954. All States showed some increase in this ratio ranging from less than 5 percent for the States of New Jersey and New York to more than 25 percent for Michigan and North Dakota.

Table N. DISTRIBUTION OF RECEIPTS OF SERVICE TRADES, BY LEGAL FORM OF ORGANIZATION, BY KIND OF BUSINESS—UNITED STATES: 1954

(Detail may not add to 100 percent because of rounding)

Kind of business	Individual proprietorships (Percent)	Partnerships (Percent)	Corporations (Percent)	Other legal forms[1] (Percent)

Table P. SOURCES OF RECEIPTS OF HOTELS AND MOTELS AND TOURIST COURTS—UNITED STATES: 1954

Source of receipts	Distribution of receipts of—	
	Year-round hotels with payroll and 25 or more guest rooms	Motels with payroll and 10 or more rental units
Total	100.0	100.0
Guest room rentals	52.2	83.8
Meals and nonalcoholic beverages	27.1	7.7
Alcoholic beverages	10.4	1.7
Packaged liquor, wine and beer	.7	[1]5.0
Other merchandise	1.4	
Services to guests[2]	5.1	1.1
Public room rentals	.8	.7
Other rental and concession receipts	2.4	

[1]Includes service station receipts amounting to 2.6 percent of total receipts.
[2]Includes telephone, valet, parcel checking, etc.

CLEANING AND DYEING PLANTS AND POWER LAUNDRIES (TABLES IN CHAPTER 7)

Although many cleaning plants do family and bachelor laundry work, the proportion of their receipts (6.0%) from such work for the industry as a whole is far less than the proportion (19.2%) of receipts for cleaning work taken in by establishments whose major source of receipts is from power laundry work. As shown in Table R, below, some 92 percent of receipts of cleaning plants is from cleaning work. For power laundries, about 75 percent of receipts are from a combination of family and bachelor laundry and commercial starch and flat work.

Table S, below, illustrates some of the differences in method of operation of cleaning plants and power laundries. While only 36 percent of cleaning and dyeing plant receipts for cleaning work is derived from retail work delivered directly to the customer's home, power laundry receipts from this source was 64 percent. A similar pattern is evidenced in the case of family and bachelor laundry work. In this case cleaning and dyeing plants received 38 percent from work delivered directly to the customer's home; power laundries received 65 percent. Wholesale cleaning work of cleaning plants constituted 9.6 percent of total receipts. In power laundries, 7.5 percent of total receipts was from wholesale laundry work.

The increasing importance of synthetic solvent cleaning plants is illustrated in Table T. Whereas in 1948 only 17.3 percent of industry receipts was earned by synthetic solvent plants, by 1954, 27.2 percent of the revenue of the industry was by this type of plant.

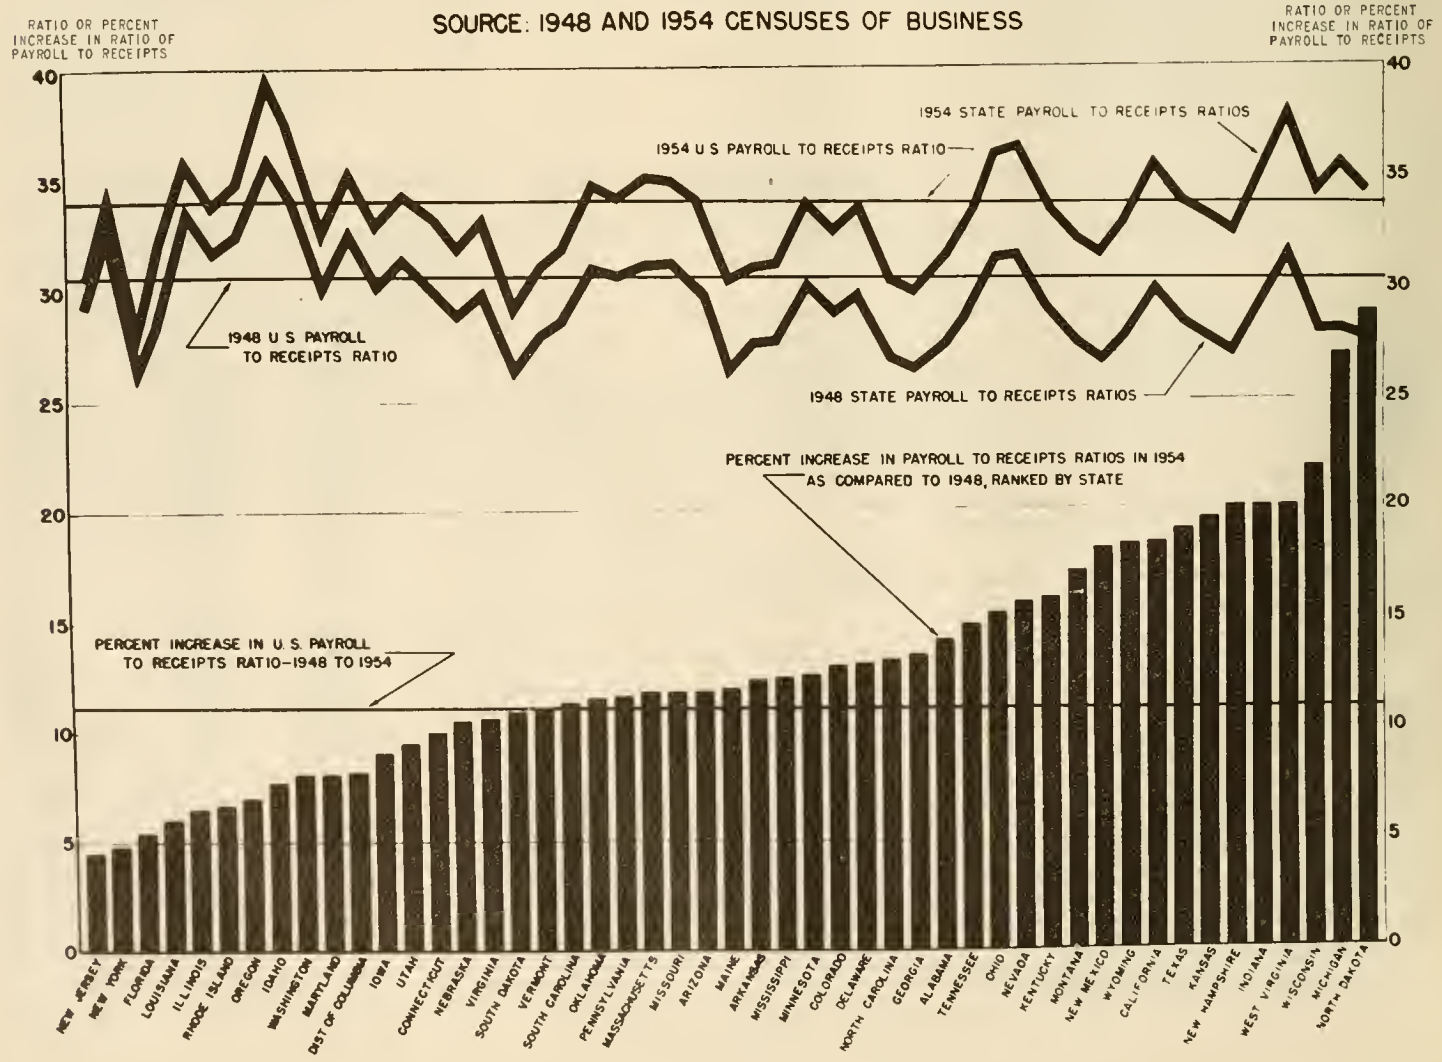

Table Q. PERCENTAGE OF OCCUPANCY OF YEAR-ROUND HOTELS WITH 25 OR MORE GUEST ROOMS—UNITED STATES: 1954 AND 1948

Percent of occupancy	1954			1948		
	Number of establishments	Receipts ($1,000)	Receipts Percent of total	Number of establishments	Receipts ($1,000)	Receipts Percent of total

Total	100.0	100.0
Synthetic solvent	27.2	17.3
Petroleum solvent	66.4	77.6
Both synthetic and petroleum solvent	6.4	5.1

MOTION PICTURES (TABLES IN CHAPTER 8)

In the 1954 Census all phases of the motion picture industry are brought together as part of the Service Trade segment of the Census of Business. Motion picture production was last enumerated in connection with the 1947 Census of Manufactures, although data for this industry were not included in totals for the manufacturing industries. Similarly, motion picture distribution was last enumerated in connection with the 1948 Census of Wholesale Trade but data were not included in wholesale trade totals.

Direct receipts of motion picture producers in 1954 amounted to $137 million. These include receipts from outright sales of film, from film rentals received directly from exhibitors, and miscellaneous receipts other than from film rentals. Earnings from films which are distributed by film exchanges, whether independent or producer-owned, have not been included in receipts of motion picture producers. Such receipts have been included under "film exchanges." Only those producers' receipts from studio rental, laboratory work and loan of players which were not netted against expenses have been included in receipts.

Receipts from motion picture distribution in 1954 totaled $674 million. To avoid duplication of receipts, this item does not include the reporting company's share of receipts from film rentals collected by others. Almost 93 percent of this total originated in film exchanges other than for television. The remaining 7 percent of the receipts were almost evenly divided between receipts from film exchanges for television, and services allied to motion picture distribution such as film delivery service, film buying and booking agencies, and film laboratories.

The number of indoor motion picture theaters in 1954 numbered 14,716 a decrease of 17.4 percent from the 17,811 counted in 1948 (see Table U below). Total receipts for this group of theaters declined 24.0 percent, in the same period. This decrease in the number and receipts of indoor motion picture theaters was largely offset by the increasing popularity of the drive-in motion picture theater. In 1948 there were only 820 such theaters in the Nation, but by 1954 they numbered 3,775. Their receipts increased from $46 million in 1948 to $228 million in 1954. The $182 million increase in receipts of drive-in theaters contrasts with the decline of $372 million in this period in regular motion picture receipts. It is interesting to note that after adjusting receipts by subtraction of admissions taxes, total receipts of motion picture theaters in 1954 were only $61 million or 4.6 percent less than in 1948.

An important part of the receipts of motion picture theaters came from the sale of popcorn, candy, etc., by the theater. In 1954 it is estimated that 12.5 percent of total receipts, excluding taxes, came from this source. However, this does not represent the total income to theater owners from such sales, because the Census motion picture theater figures do not include receipts from the sale of these commodities when the facilities are operated by concessionaires.

Sales of popcorn, candy and other refreshments were much more important in drive-in theaters than in the indoor type. Twenty-two percent of the receipts from total receipts, excluding taxes, in drive-in motion picture theaters came from such sales in 1954 compared to 10.7 percent in indoor theaters; in 1948 the corresponding percentages were 13.1 and 6.6, respectively. Comparatively minor other sources of receipts were earned from sales of advertising and from television.

Although there has been a considerable decrease in the admissions tax rate since 1948, motion picture theaters were still important collectors of such taxes. In 1954, admissions taxes are estimated to have amounted to $132.4 million or 11.9 percent of the total receipts from admissions. This was just about half the amount collected in 1948. Of the total admissions taxes 87.6 percent went to the Federal Government, and 12.4 percent to local and State Governments.

Table U. SOURCES OF RECEIPTS OF MOTION PICTURE THEATERS—UNITED STATES: 1954 AND 1948

Type of theater	Number		Total receipts		Receipts from admissions		Sale of popcorn, candy, etc.		Admissions taxes					
									Amount		As percent of total receipts		As percent of admissions receipts	
	1954	1948	1954[2] ($1,000)	1948[1] ($1,000)	1954[2] ($1,000)	1948[1] ($1,000)	1954[2] ($1,000)	1948 ($1,000)	1954[2] ($1,000)	1948[3] ($1,000)	1954	1948	1954	1948
Motion picture theaters, total	18,491	18,631	1,407,151	1,597,219	1,114,932	1,244,812	159,826	91,005	132,393	261,402	9.4	16.4	11.9	21.0

[1]Adjusted for comparability with 1954. Includes taxes but not receipts from concessionaires.
[2]Estimated for 1954 from data provided by establishments reporting this information.
[3]Includes sales taxes..

Table V. AVERAGE RECEIPTS, ADMISSIONS, SHOWINGS, AND CAPACITY OF MOTION PICTURE THEATERS—UNITED STATES: 1954

Type of theater	Average annual receipts from customers		Average paid admissions per year	Average number of showings per year	Average theater capacity
	Total receipts ($1,000)	Admissions receipts (exc. taxes) ($1,000)	(1,000)	(Number)	(Number)
Motion picture theaters, total	90.2	72.0	145.4	870	(NA)
Motion picture theaters, (exc. drive-in)	95.0	77.0	157.7	967	765
Drive-in motion picture theaters	69.6	50.7	93.1	457	[1]477

(NA) Not available.
[1]Represents number of cars.

In 1954, 12,566 motion picture theaters with payroll, whose total receipts from customers amounted to $1.1 billion, reported information on number of admissions, showings, and capacity. These theaters accounted for 72.3 percent of all motion picture theaters with payroll and for 81.1 percent of their receipts. For those theaters which reported such data, Table V above presents the average receipts from customers per theater, the average number of admissions, average capacity, and average number of showings.

The average price per admission to indoor motion picture theaters for the Nation as a whole was 49 cents after deducting admissions taxes. This compares with an average of 36 cents in 1948. (See Table W below). For drive-in theaters the average admission price was a little higher, 54 cents. The comparable 1948 figure is not available. Geographically, the State of Nevada had the highest average admission price, 65 cents, although this was for admissions to indoor theaters only. In general, the average admission price was lowest in the Southern States, with Mississippi averaging only 34 cents per person and Tennessee and Alabama 35 cents.

LIST OF CORRECTIONS

(See also Clarification of Illegible Figures on page 30)

Volume V has been prepared primarily by assembling and binding the tabular portions of previously issued subject bulletins together with a miscellaneous chapter not issued in bulletin form. This plan was adopted to reduce publication costs and to expedite issuance of the data. The data appearing below represent revisions made after bulletins were issued. They should be taken into consideration in using not only Volume V but the subject bulletins from which it was assembled.

LIST OF CORRECTIONS

(See also Clarification of Illegible Figures on page 30)

Volume V has been prepared primarily by assembling and binding the tabular portions of previously issued subject bulletins together with a miscellaneous chapter not issued in bulletin form. This plan was adopted to reduce publication costs and to expedite issuance of the data. The data appearing below represent revisions made after bulletins were issued. They should be taken into consideration in using not only Volume V but the subject bulletins from which it was assembled.

LIST OF CORRECTIONS

(See also Clarification of Illegible Figures on page 30)

Volume V has been prepared primarily by assembling and binding the tabular portions of previously issued subject bulletins together with a miscellaneous chapter not issued in bulletin form. This plan was adopted to reduce publication costs and to expedite issuance of the data. The data appearing below represent revisions made after bulletins were issued. They should be taken into consideration in using not only Volume V but the subject bulletins from which it was assembled.

LIST OF CORRECTIONS

(See also Clarification of Illegible Figures on page 30)

Volume V has been prepared primarily by assembling and binding the tabular portions of previously issued subject bulletins together with a miscellaneous chapter not issued in bulletin form. This plan was adopted to reduce publication costs and to expedite issuance of the data. The data appearing below represent revisions made after bulletins were issued. They should be taken into consideration in using not only Volume V but the subject bulletins from which it was assembled.

Baseball clubs (inc. promoters)	357	77,183
Football clubs (inc. promoters)	21	12,000
Stadiums, athletic fields, promoters of boxing, wrestling, and other athletic events	210	41,614
Bathing beaches	259	4,077
*Golf courses	321	8,365
Riding academies	659	5,181
Skating rinks	1,379	21,892
Skating rinks, roller	1,337	18,448
Skating rinks, ice	42	3,444
Swimming pools	482	7,329
Commercial sports operators, n.e.c.	2,406	15,508
Bicycle rentals	122	417
Boat and canoe rentals	1,361	6,895
Other commercial sports operators, n.e.c.	923	8,196
Theaters and theatrical producers (exc. motion picture)	1,410	144,275
Miscellaneous amusement and recreation service	6,189	263,274
Amusement devices	1,578	24,384
Amusement parks	367	42,047
Shooting galleries	174	1,582
*Coin-operated amusement device services	2,432	99,185
Miscellaneous amusement and recreation services, n.e.c.	1,638	96,076
Hotels, Tourist Courts		
Hotels	29,202	2,172,410
Tourist courts	23,316	193,505

*Data not comparable with 1954 because of difference in enumeration techniques in the two censuses (see text).
n.e.c. Not elsewhere classified
[1]Data in this table differ from those which appeared in the 1948 Census of Service Trade. Such data were adjusted to exclude data for establishments with no payroll which had receipts of less than $1,000.
[2]Includes industrial laundries.
[3]Does not include admissions taxes.

[1]Receipts of motion picture producers include only receipts from film rentals received directly from exhibitors, receipts from outright sales of films, and miscellaneous receipts other than from film rentals. Neither receipts from independent distributors, nor receipts from company-owned distributor offices are included in receipts of motion picture producers.

[2]Includes receipts from export operations.
